

SEPCIFICATION FOR LS-R302A(50)

Version	Date	Reason
V1.0	21/04/2017	Document

Hardware

1	5Vpower port
2	Giga-bit interface
3	Test key
4	50core output 1
5	50core output 2

Product Parameters

Product Model	Full-color async receiving card
Scan	1/32 scan, compatible with constant voltage/ constant current/ bistable latch/ high refresh chips etc.
Control Range	192*128(4scan) 128*256(16scan) 128*512(32scan)
On-board Port	2*50PIN
Grey Level	2~65536
Refresh Rate	Max 4KHz~16KHz
Serial frequency	1MHz~31.25MHz
Data	20 full-color signals
Cascade Cards	255
Brightness Loss	< 10%
Other Attributes	Screen brighten gradually, test network off-line; LED test lines automatically
Partner Product	LS-Q3C/LS-Q3/LS-Q3-AV/LS-X5
Working Temperature	-40°C - 85°C

Dimension Drawing

Connection Instruction

LS-Q1-PLUS can connect many cards. It can be controlled without computer, but also be controlled via capturing the screen.
