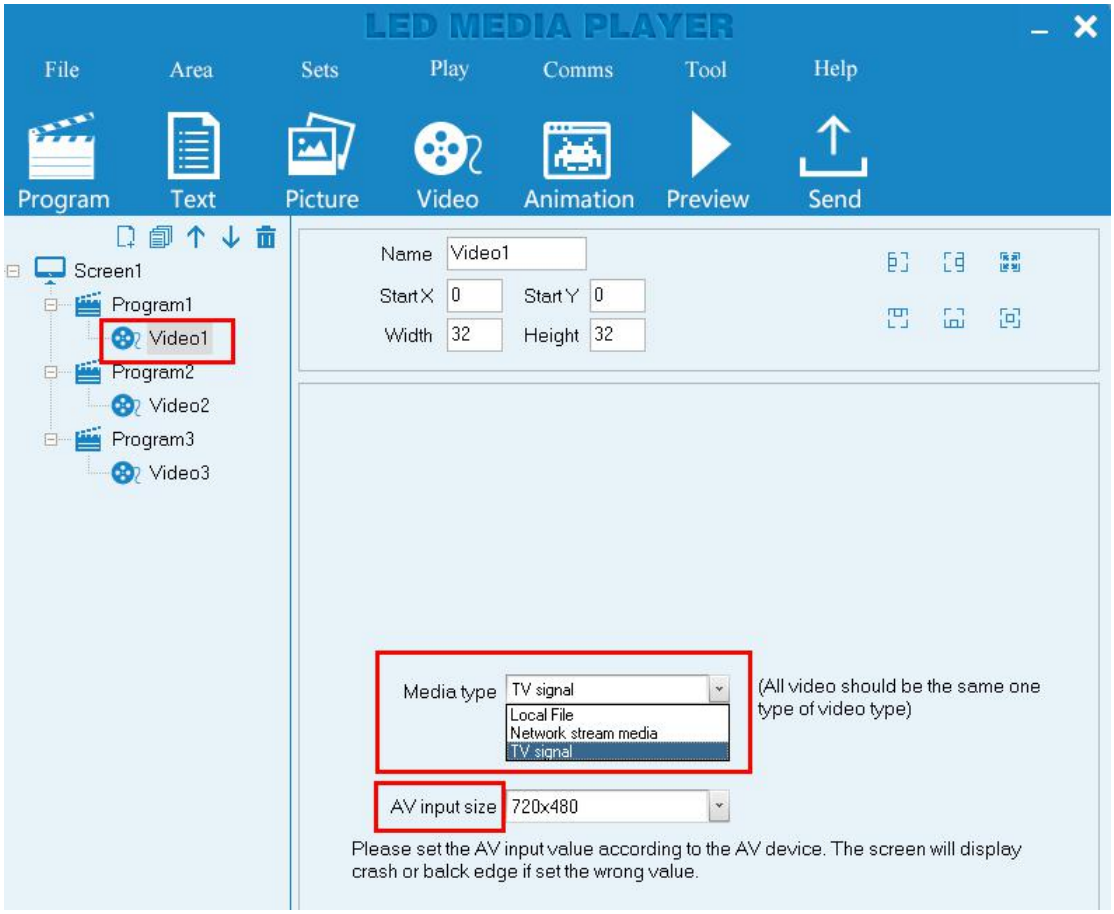
Software Settings



Applications

Connect the LS-Q3-AV and AV device via AV cable, let the info display on the led panel. AV terminal (Composite video connector) is the output port from TV, PC, DVD, Camera, STB (Set Top Box) and so on.

Our LS-Q3-AV collect the data from AV terminal signal, then transfer the data to display the info to led display panel.

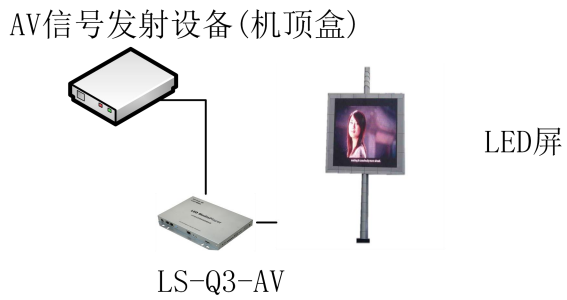
Solutions

Right now our LS-Q3-AV can support all device with AV signal output .

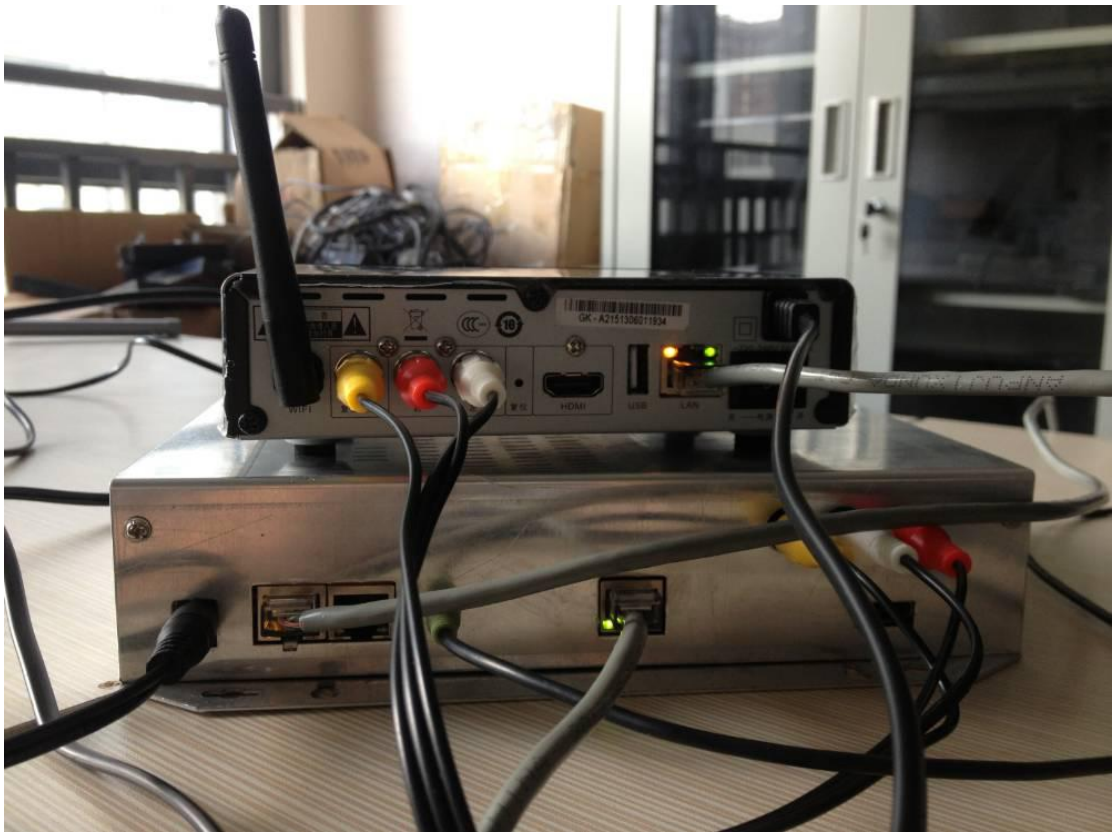
1. STB (Set Top Box)



Play the live TV program at appointed time (like CCTV News, Weather broadcast and so on);

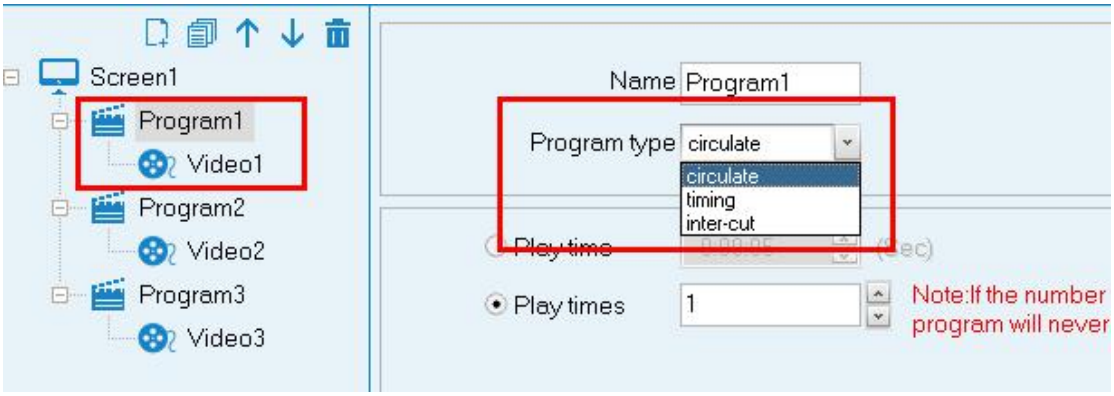
Set the program schedule for the video from the software;

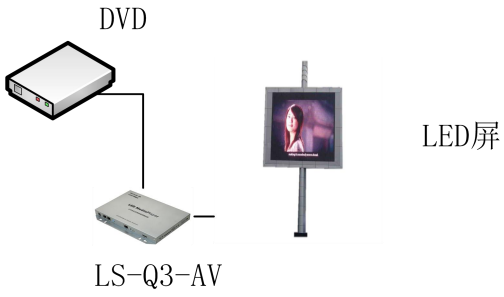
For example, set 19:00-19:30 to play live CCTV News.



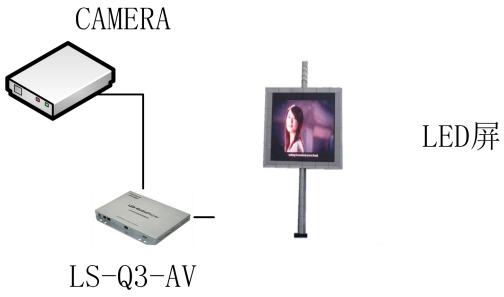
2. DVD player

The programs from DVD player can be set as circulate/timing/inter-cut play type.





3. Camera

Display the live program(show) from Camera ,like Wedding show


Connect the camera with LS-Q3-AV via AV cable ,can be used for wedding show, concert and so on.
