

SPECIFICATION FOR Q1-Plus (75E)

Version	Date	Reason
V1.0	21/03/2017	Document

Hardware

1	5V power port
2	5V power plug
3	5V power source reversal connection defense
4	Test key
5	HUB75E output port
6	1000M network interface

Product Parameters

Product Model	full color/Syn-async control card
Control Range	640*128(4scan/ card) 128*512(32 scan/ card) 1024*256(single&dual color synchronous/ card)
On-board Interface	8*HUB75E
Grey Level	2~65536
Refresh Rate	Max 4KHz~16KHz
Serial Frequency	1MHz~31.25MHz
Data Group	16 group full-color signal
Concatenation	255pcs
Memory	4GB/8GB
Temperature	-40℃- 85℃
Features	<ul style="list-style-type: none"> ● Support all modules of single&dual and full color, one key to choose various settings ; ● Support syn-async dual mode, one key to switch ; ● Support any cascade ; ● High capacity storage including 4GB/8GB ; ● Built-in colorful background and words; ● Support 1/32scan, compatible with mainstream high refresh chip ; ● Sending speed 2.5 times faster, word left shift effect promote 5 times ;
